Work Experience

Product Designer Parple

May 2023 - Present

- Collaborated with the startup team on a contract project to design the 'Parple' application, focusing on user centered design and visual appeal.
- Worked closely with stakeholders to understand their requirements and incorporate their feedback into the design process.
- Developed wireframes, user flows, and interactive prototypes to present and validate design concepts.
- Collaborated with the development team to provide design assets and support during the implementation phase.
- Produced high-fidelity designs, including comprehensive style guides, mockups, and visual assets.

UI/UX Designer Freelance

Sept 2019 - Present

- Consulted with tech startups to review current products and provide design solutions to solve user needs and business challenges through User Research Information Architecture, interaction Design, Visual Design, and Prototyping.

Projects

- **Sneaker Head** - I played a key role in a UI/UX design project to enhance the online sneaker shopping experience, focusing on improved navigation, visually appealing interfaces, and the implementation of a virtual try-on feature using augmented reality technology. This project showcased my expertise in user-centered design, problem-solving, and collaboration, resulting in an enhanced user experience and increased conversions.
